

- Since 1960 -

*Essential oils producer*

ISO 9001  
ISO 14001

BUREAU VERITAS  
Certification

Since 1960 in Esencias Martínez Lozano S.A. we have been dedicating to cultivation, harvest and distillation of the different Spanish aromatic herbs, and trading a high quantity of first quality essential Oils.

We are located in the South-East of Spain, exactly in Caravaca de la Cruz, region of Murcia, which is the main area in Spanish essential oils production.

At present, we have own plantations, where we cultivate Spike Lavender, Red Thyme, Oregano, Cypress, Sage, Lavender, and Lavandins.

We also harvest wild herbs such as Cistus, Fennel, Rosemary, Marjoram, Oregano, Thymes, Rue, etc...

In 2002, we became a mainly exporter company, and today our exportations of essential oils represent the **80% of our invoicing**.

Since 2004, we were awarded the **European Ecological Agriculture Certification**, for producing and trading Organic Essential Oils.

Also, in 2006, we obtained the **NOP Certification**, which enables us to produce and trade organic essential Oils destined for the North American market.

In 2011 we were also awarded the **ISO 9001 and 14001** in quality and environment.

In 2012 we obtained the **Kosher certification** for the essential oils we produce. This certification has been issued by THE UNITED TRADING BOARD AS SYNGOGUE KASHRUT KLBD London.

Our essential oils can be found all over the world, fruit of our spirit and good work in the sector of the essential oils, and thanks to the trust our Customers place in us.

### *As Philosophy*

**High quality essential oils and constant improvement  
in service and attention to our Customers,  
being our maxim the full satisfaction of them**

### *Best regards*

José Antonio Martínez (Managing Director)  
Francisco Javier Martínez (Managing Director)  
Marie-Carmen Roman (Commercial assistant)

## ESSENTIAL OILS

<input type="checkbox"/> Anis green	<i>Pimpinella anisum</i>
<input type="checkbox"/> Cade	<i>Juniperus oxycedrus</i>
<input type="checkbox"/> Cypress	<i>Cupressus sempervirens</i>
<input type="checkbox"/> Cistus-rockrose	<i>Cistus ladaniferus</i>
<input type="checkbox"/> Eucalyptus Crude	<i>Eucalyptus globulus</i>

## *HYDROLATES (Water Flavor)*

We have hydrolates - water flavor  
from the different essential oils that we produce.

At the beginning of each campaign we will inform you to know the quantity  
you would need, and we keep it under demand.
